

FC Carolina Alliance is delighted to announce that on Thursday, August 13<sup>th</sup> from 7:00pm-9:00pm at the FCCA Club Office, US Men's Soccer team Sports Psychologist, Dan Freigang will conduct a symposium to the FCCA club coaches and team managers. The staff and board at FCCA are extremely proud to be able to lure the pedigree of Freigang to our great organization. It is the hope that continual development in all aspects of the game by our coaching staff will lead to a profound positive effect on our players.

A well published author with over 100 scientific articles on periodization of mental training, self-confidence and game preparation, Dano's seminal research integrating technical training with psychological elements have become a standard for many professional teams. Dan is also prolific clinician and his contributions to player development are seen in the , USSF, USYSA, NCAA , and numerous NGB's and sport organizations.

Freigang, Ph.D. was an internationally ranked athlete and national team coach and he presents his skills as a unique blend of scientist and coach. Dan's clients include an extensive list of teams and players in from United States National Teams, NHL, NBA, MLS, and NCAA. Recognized as one the bright stars in performance psychology he is a highly sought after consultant in both the competitive worlds of business and sport.
